- ♦ Do not tell a caller that you are home alone. Tell them your parents are busy. Ask them to call back. Take a message and write their number down.
- ♦ Or, if you have an answering machine, let the machine take messages. Turn the volume up so you can pick up the phone if your parents call. They need to know if you are OK.
- ♦ If a caller makes funny noises, says nothing or says things that are not nice, hang up. Tell your parents.
